50 Financial partners

(Banks, MFIs, debt factoring companies)

Platform's Capabilities

Financial agents can set up a personalised workspace, through creating a profile on the platform, and receive all its benefits, including financial product calculator and professional tech support.

Our service automatically calculates the price of chosen financial product, as well as the size of your commission and enables you to carry out the deal online.

With the help of our automated scoring system, financial agent is able to predict the decision of chosen financial partner on the client's case.

Financial agent, on behalf of the client, can select financial product and financial partner online. Choosing a product with the best bank conditions is made simple, with the help of automated ranking on price, quality, bank ranking, speed of execution, agent's commission and other parameters.

Provision of up-to-date information, high quality and time efficiency of tasks execution and uninterrupted service are among the key benefits of the platform.

New banks, MFIs and other financial partners consistently join the platform.

We constantly work towards expanding our product range.

The size of financial agent's commission is in line with bank's conditions.

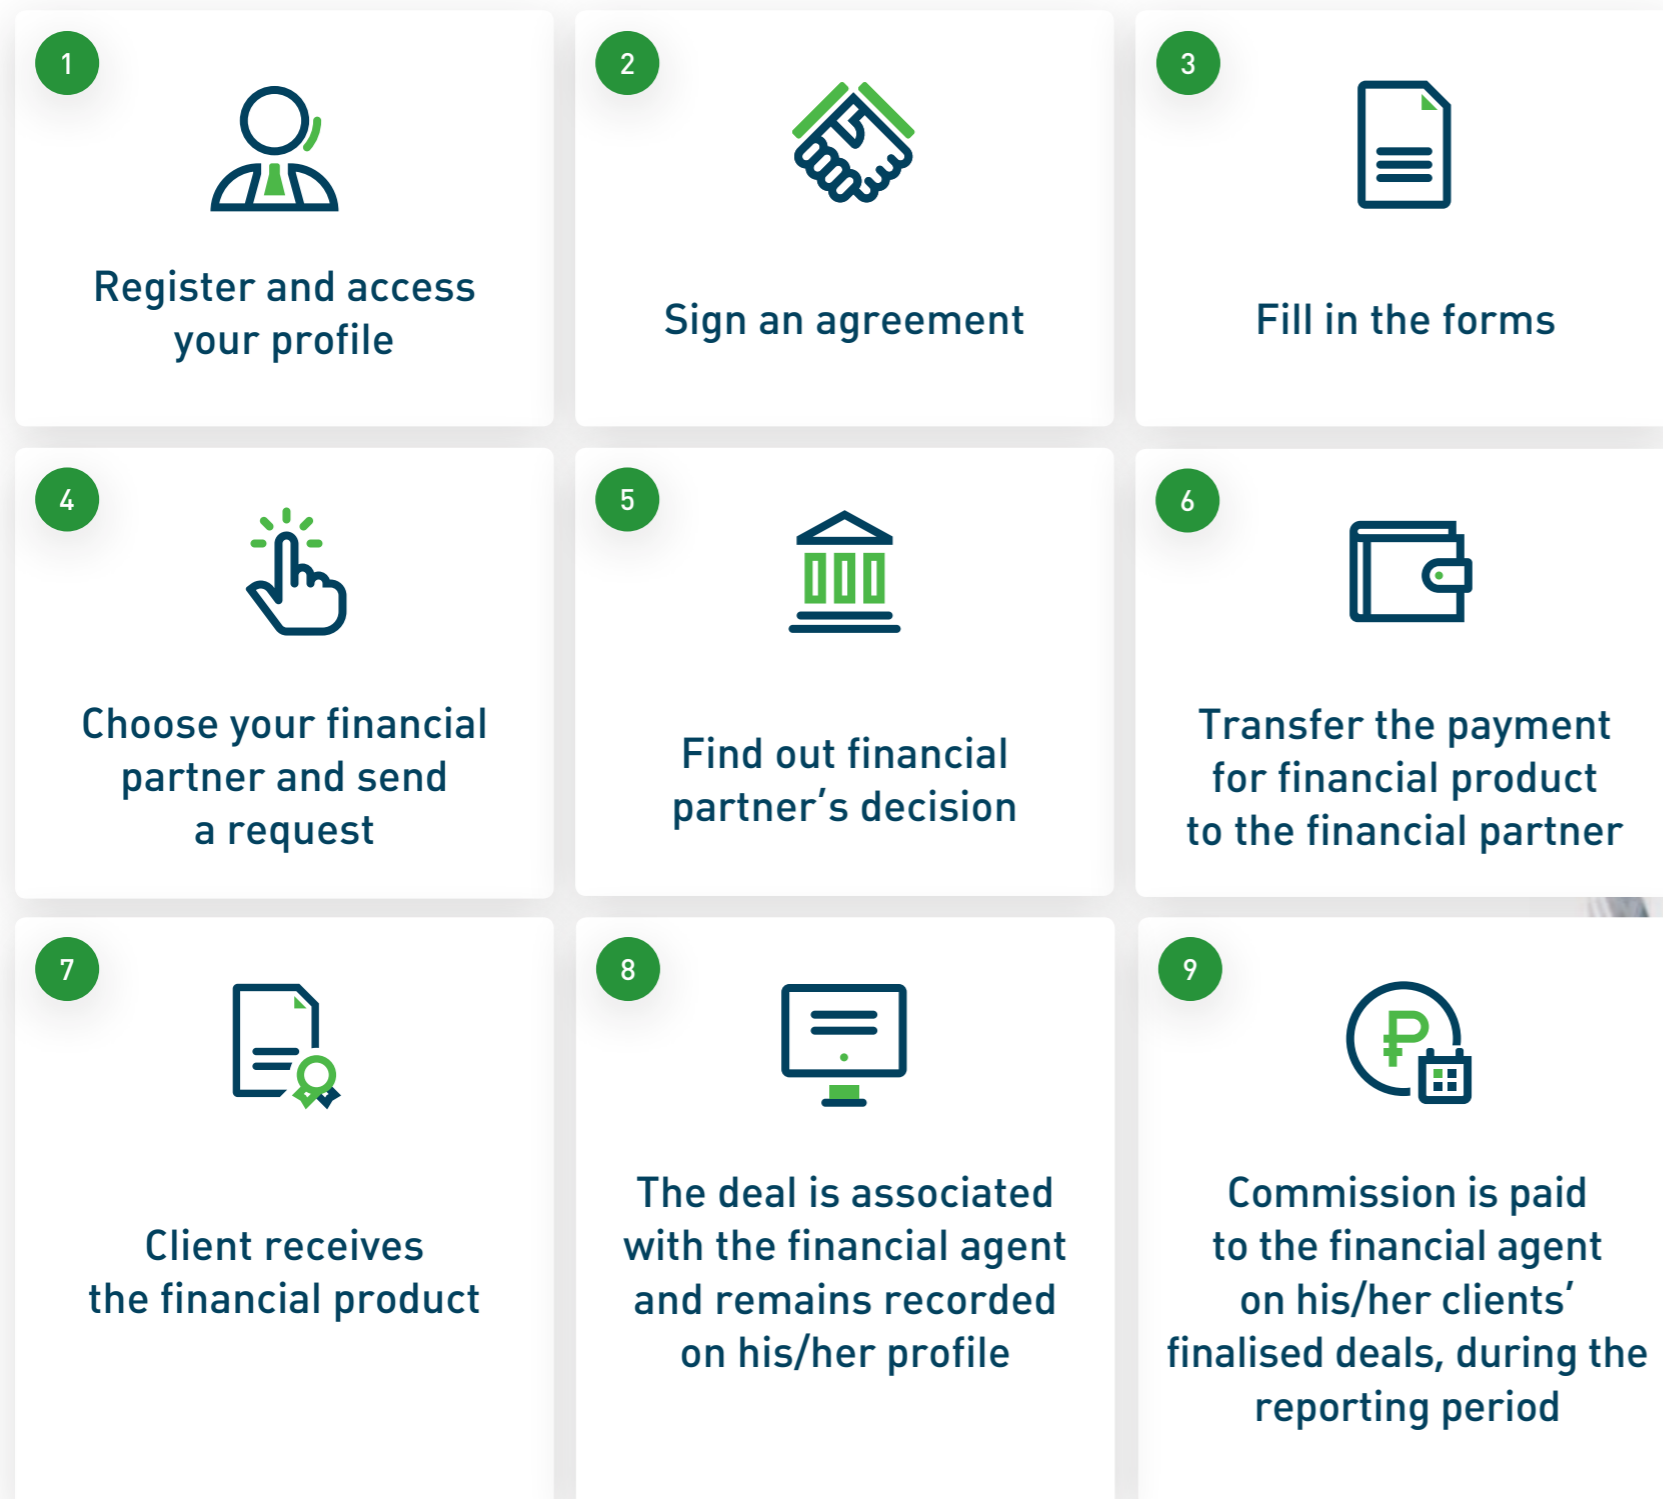

Commission is paid to financial agents twice a month.

Working through **BANKON 24**

Financial agent sends a request for chosen financial product, on behalf of the client, through agent's profile. Our system automatically sorts all available documents, fills out bank forms and processes information from 10 official third-party databases. As a result, client's digital portfolio is created and then forwarded to chosen financial partner's BANKON24 profile.

Benefits of **BANKON 24** for Financial Agents:

- ✓ **BANKON 24** platform promotes equal opportunities and unrestricted access for all the participants.
- ✓ All clients of financial agents always remain associated with them, and commission is paid on every finalised deal with agents' clients.
